**WEST MIDLANDS, UNITED KINGDOM** – September 16, 2004 -- 65bit Software today announced the availability of EasyHistoryCS for Adobe InDesign CS.

The EasyHistoryCS panel shows the available undo and redo steps - simply double click to undo or redo multiple steps. The panel also shows a snapshot of the current spread when the document is saved, or when the user hits the snapshot button.

“EasyHistoryCS has been launched following a public-beta. We would like to thank all of those who downloaded the plug-in and contacted us with suggestions,” said Ian White, Director of 65bit Software Ltd.

EasyHistoryCS is available immediately for InDesign CS on Macintosh and Windows, and a free 15 minute evaluation version is available on the 65bit website, [www.65bit.com](http://www.65bit.com).

### *About 65bit Software*

65bit Software Limited was founded in 2003 and specializes in the development of high quality Plug-ins for Adobe InDesign and InCopy.

The growing processing power of today’s desktop computers is allowing the development of a new breed of tools, offering levels of integration, power and ease of use previously only seen in high end publishing systems.

At 65bit we are committed to providing best of breed solutions for the database publishing, catalog, newspaper and magazine markets.

For more information, contact Mark Haden, Director, at 65bit Software.
