Wheels - ATB Disc

BONTRAGER KING EARL DISC

- Lightweight and bombproof! 145 grams lighter than the King's nearest competitor
- 1 piece front thru axle for added stiffness
- Same rear axle adaptability as Big Earl and 6 bolt rotor mount for the big discs
- Sexy and smart! Carbon and aluminum hub shell reduces weight and looks great!
- Bontrager engineering ensures that you are on the best equipment
- 150mm OLD version rear hub available for the optimum in strength and clearance

264015

PART #	RIM DIA.	FT/RR/PR	TYPE	COLOR	SPEED	HOLES	SPOKES	VALVE	WEIGHT	PRICE

BONTRAGER BIG EARL DISC

- Highly adaptable and super strong freeride wheelset will take on the big stuff
- 32mm wide, single-cavity aluminum rim with welded seam provides excellent strength and support
- Hubs come stock with 6-bolt disc mounts but are adaptable to oversized centerlock (Saint) rotors (See hub parts section for details)
- 5mm quick release and 10mm or 12mm thru axles are adaptable to any size using adapter kits (See hub parts section for details)
- Front hub available in 20mm thru axle only
- Brass locking nipples
